

Groton Area Schools Listening Sessions

Values Definition Workshops

These workshops provide a structured, holistic process for defining needs and priorities, while building consensus quickly and efficiently. With Values Definition, we help clients address challenges ranging from the development of strategic improvement plans to the improvement of existing infrastructure.

Workshop deliverables include a comprehensive report linking stakeholder needs, wants, and ideas to desired outcomes, strategies, and actions for the Groton Area School District. In a logical process, FJJ Solutions helps identify and prioritize real needs and then assists in building a successful solution roadmap.

Approach

FJJ Solutions will facilitate workshops utilizing a Values Definition process to gather stakeholder input. During the workshop, participants will complete needs assessments using a variety of FJJ Solutions' tools. The output of this meeting is to define a collective vision for the Groton Area School District.

Objectives

- 1) Gather input from key stakeholder groups on their long-term vision for the Groton Area School District, desired outcomes and measures of success.
- 2) Assess the perceptions and realities of the current Groton Area School District.
- 3) To identify stakeholder input on how to be successful and what not to do in effort to help guide Administration and school board planning process.
- 4) Prioritize needs.
